# **Power Supply Connectors For Industrial Equipment**

PX Series

# Features

#### 1. Power supply connector for high-current

Withstands voltage of 2200V AC max. and 10A/contact (60A/6 pos.) of rating current.

# 2. Housing design prevents incorrect insertion

Opening section is designed to prevent reverse insertion and mating direction is easily checked. Additionally, the opening section is keyed to prevent misalignment of plugs in parallel applications.

#### 3. Reduced Size

When compared to conventional products, Hirose's plug is smaller in size by 65% and the receptacle is smaller by 55%.

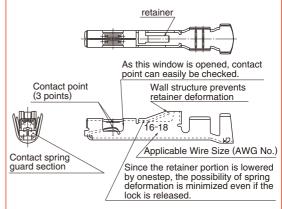

#### 4. Reliable contact structure

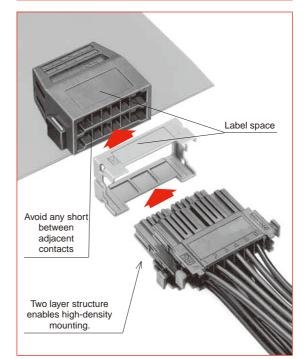

- ①Three point contact
- ②Gold plated contact point (standard) with high-level environmental resistance
- ③Contact spring guard structure
- ④Structure prevents retainer deformation

#### 5. Easy Cable Assembly

- ①Use of dedicated crimping tools will make harness work easier.One tool crimps both AWG#16 and AWG#18 wire.
- ②Positive lock can be felt on contact insertion.
- ③Release of contact lock can easily be performed with dedicated jig, which facilitates the wiring modification after assembly.

# Reliable contact structure

**2014.3** (2) **HS** 1

In cases where the application will demand a high level of reliability, such as automotive, please contact a company representative for further information.

## Product Specifications

|         | Operating temperature range | -55℃~+105℃ |
|---------|-----------------------------|------------|
| Ratings | Voltage rating              | 600V AC    |
|         | Current rating              | 10A        |

| Description             | Specifications  | Requirements  |
|-------------------------|---|---|
| 1.Contact resistance    | 10mΩ max.   | 100mA   |
| 2.Insulation resistance | 1000MΩ min.   | 500V DC   |
| 3.Withstanding voltage  | No flashover or insulation breakdown.   | 2200V AC / 1 minute.  |
| 4.Durability            | <ul> <li>①Contact resistance : 20mΩ max.</li> <li>②No damage, cracks or looseness of parts</li> </ul>   | 1000 cycles   |
| 5.Vibration             | $^{}$ No electrical discontinuity of 10 $\mu$ s or more.  | Frequency:10 to 55Hz,single amplitude of 0.75mm, 2 hours,3axis  |
| 6.Shock                 | <ul> <li>②Contact resistance : 20mΩ max.</li> <li>③No damage, cracks or looseness of parts</li> </ul>   | Acceleration: 490m/s <sup>2</sup> Duration: 11ms<br>Test at sine half-wave, 3 axes, bi-directional three times, respectively.   |
| 7.Temperature cycle     | <ul> <li>①Contact resistance : 20mΩ max.</li> <li>②Insulation resistance : 1000MΩ min.</li> <li>③No damage, cracks or looseness of parts</li> </ul> | Temperature : $-55 \rightarrow +5 \rightarrow +35 \rightarrow +85 \rightarrow +5 \rightarrow +35^{\circ}$<br>Time : $30 \rightarrow 10 \rightarrow 15 \rightarrow 30 \rightarrow 10 \rightarrow 15$ Minutes<br>5 cycles |
| 8.Humidity              | <ul> <li>①Contact resistance : 20mΩ max.</li> <li>②Insulation resistance : 1000MΩ min.</li> <li>③No damage, cracks or looseness of parts</li> </ul> | 96 hours at 40 $\pm 2^\circ C$ and humidity of 90 $\sim$ 95%  |
| 9.Salt spray            | ①No corrosions  | 5% salt water for 48 hours  |

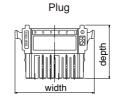

# Materials

| Parts         | Material      | Finish             |
|---------------|---------------|--------------------|
| Contacts      | Copper alloy  | Gold plating       |
| Insulator     | PBT (UL94V-0) |                    |
| Metal fixture | Copper alloy  | Tin reflow plating |

# Comparison In Size With Conventional Equivalent

|            |        |      | (11111)        |
|------------|--------|------|----------------|
|            |        | PX   | A company-made |
|            | Width  | 34.2 | 44.94          |
| Plug       | Height | 7.0  | 7.15           |
|            | Depth  | 23.0 | 22.80          |
| Receptacle | Width  | 28.0 | 39.40          |
|            | Height | 14.8 | 18.47          |
|            | Depth  | 27.4 | 27.18          |

For volume ratio, plug is downsized to : nearly 65%; and receptacle : nearly 55%.

width

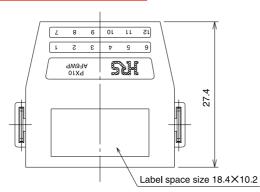

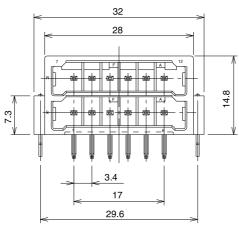

## Receptacles

#### •6 pos.×2 row Type

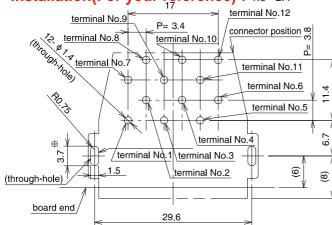

| Part No.       | CL No.        | RoHS |
|----------------|---------------|------|
| PX10-AF6WP(50) | 236-0001-0-50 | YES  |

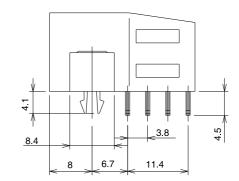

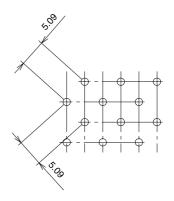

# Dimensions For Circuit Board Installation(For your reference) t=1.6~2.4

\*Where t=1.6 (Setting value depends on thickness of boards.)

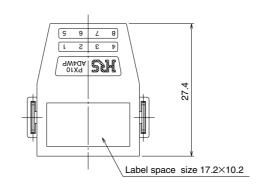

## ●PCB mounting pattern

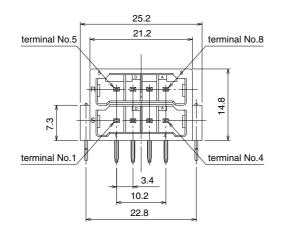

#### •4 pos.×2 row Type

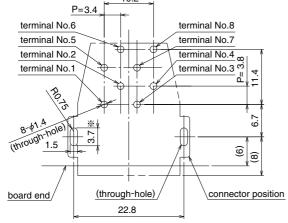

| Part No.       | CL No.        | RoHS |
|----------------|---------------|------|
| PX10-AD4WP(50) | 236-0005-0-50 | YES  |

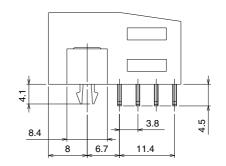

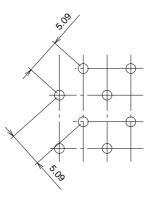

# Dimensions For Circuit Board Installation(For your reference) t=1.6~2.4 t=1.6~2.4

\* Where t=1.6 (Setting value depends on thickness of boards.)

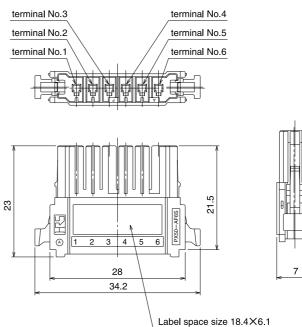

## ●PCB mounting pattern

### •6-Position Type

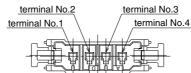

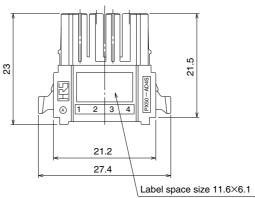

# **•4-Position Type**

(This picture shows the state of cable insertion.)

| Part No.  | CL No.     | RoHS |
|-----------|------------|------|
| PX50-AD4S | 236-0006-3 | YES  |

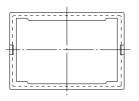

# Simple-Type Plug Holder Cover

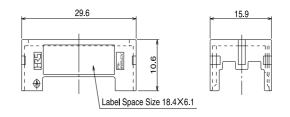

•For 6-Position Type

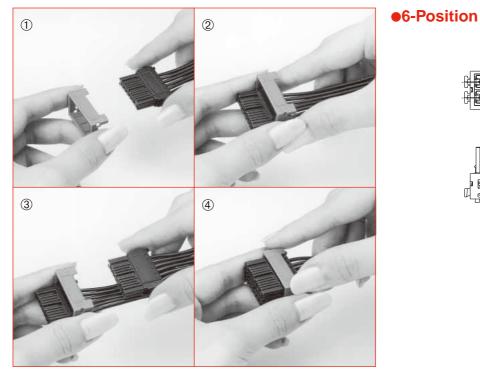

| Part No.  | CL No.     | RoHS |  |
|-----------|------------|------|--|
| PX-6WS-CV | 236-0004-8 | YES  |  |

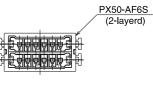

Installation status

# Installation method6-Position Type

<Caution>The holder cover is not a rugged support fixture but only meant for alignment of the plugs. When external force is imposed by pulling of cables, etc. before mating, please bundle all cables together around the connector with union bands, etc.

## Crimp contact

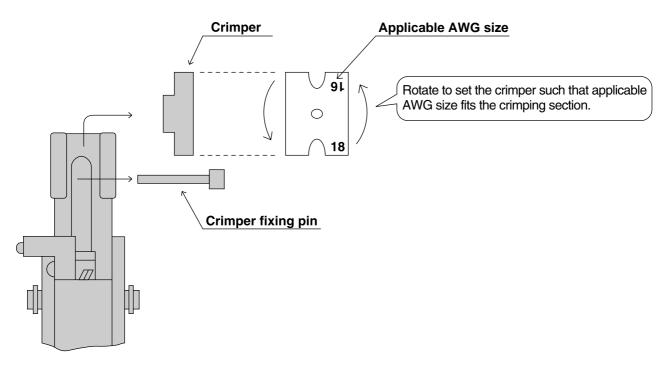

| Applicable wire size | Packaging | Part No.    | CL No.     | Quantity | RoHS |
|----------------------|-----------|-------------|------------|----------|------|
| 16, 18               | Reel      | PX50-SC-231 | 236-0003-5 | 5,000    | VEO  |
|                      | Bag       | PX50-SC-131 | 236-0008-9 | 200      | YES  |

Please order by integral multiple of the packing volume.

# **Tools**

| Туре                    | Description   | Part No. CL No. |            | Applicable contacts |  |
|-------------------------|---------------|-----------------|------------|---------------------|--|
| Automotio               | Press unit    | CM-105          | 901-0005-4 | PX50-SC-231         |  |
| Automatic               | Applicator    | AP105-PX50-3    | 901-2573-8 |                     |  |
| Manual                  | Hand tool (*) | HT104/PX50-3    | 250-0229-4 | PX50-SC-131         |  |
| Contact extraction tool |               | PX50-SC-TC      | 250-0233-1 | PX50-SC-*31         |  |

\*For our manual crimping tools, we employ the rotate-replace procedure to use the crimper depending on wire size.

[Manual crimping tool : crimped section]

Note : Since manual crimping tool cannot provide fine adjustment of crimp height, please use the proper crimp height of auto crimper in crimping of the wires other than specified ones

## Crimp Terminal Remoral Jig

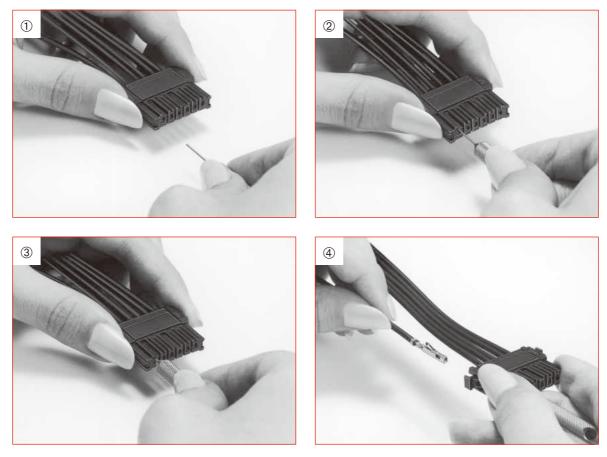

| Part No.    | CL No.     | RoHS |
|-------------|------------|------|
| PX-50-SC-TC | 250-0233-1 | YES  |

#### <WARNING>

When the crimp terminal remoral jig is inserted and pushed from the mating face of a connector as shown below, retainer lock of the terminal will be released. Then please extract the cable. If the retainer is too lowered after extracting terminal, put it in a former position and reinsert. Position and direction of the jig top to be inserted are as shown in the Figures below. Be careful that any mistake will lead to the damage of terminal.

#### How To Extract Crimp Terminal

\* Insert the jig top into the peak of convex section on terminal hole.
