0.6mm Pitch Board-to-Fine-Coaxial Cable Connectors

DF21 Series

■Features

1. High Interconnection Reliability

Effective contact mating length of 1.55 mm, innovative bellow style contact design, built-in interlocking feature of mated connectors assures high electrical and mechanical reliability, providing needed rigidity to resist excessive twisting.

Superior reliability of the termination of the fine coaxial cable is accomplished with batch soldering.

2. Shielded design

Metal shell encloses the connector and makes contact with all external conductors of the fine coaxial cable permitting reliable ground connection to the board side of mated assemblies.

3. Reliable mating/unmating

The connectors are self-align during mating.

Optional pull-out tab permits connection and disconnection in narrow spaces.

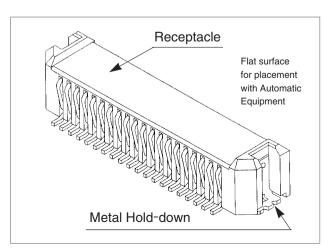

Polarized configuration prevents incorrect mating.

4. Board placement with Automatic Equipment.

The upper surface provides flat area for placement of embossed tape packaged connectors with vacuum nozzles of automatic equipment.

Applications

Notebook computers, liquid crystal displays (LCD), video and audio devices, medical instruments, portable devices and any other device requiring reliable connection and termination with fine pitch coaxial cable.

■Product Specifications

Ratings	Current rating			Operating temperature range	-35°C to 85°C (Note 1)
		Wire size AWG #40: 0.3 A AWG #36: 0.5 A	AWG #40: 0.3 A	Operating humidity range	20% to 80%
			Storage temperature range	-10°C to 60°C (Note 2)	
	Voltage rating	50 V AC		Storage humidity range	40% to 70% (Note 2)

Item Specifications		Condition		
1. Insulation resistance 500M ohms min.		Measured at 100 V DC		
2. Withstanding voltage	No flashover or insulation breakdown	Conduction of 150 V AC applied for 1 minute		
3. Contact resistance	100m ohms max.	Measured at 100 mA		
		Frequency of 10 to 55 Hz, single amplitude of 0.75 mm, in 3 directions, 2 hours		
5. Humidity	Contact resistance of 100m ohms max., insulation resistance of 50 M ohms min.	Temperature of 40±2°C, humidity of 90% to 95%, left standing for 96 hours		
6. Temperature cycle	Contact resistance of 100m ohms max., insulation resistance of 50 M ohms min.	(-55°C : 30minutes →5 to 35°C : 2 to 3minutes →85°C : 30minutes →5 to 35°C: 2 to 3minutes) for 5 cycles		
7. Durability	Contact resistance of 100m ohms max.	30 cycles (mating/unmating)		
8. Resistance to Reflow heat	No melting of the resin parts that will affect performance	Reflow: at the recommended temperature profile, Solder: at a soldering iron temperature of 300°C for 3 seconds		
Resistance to Soldering heat	No deformation of the insulator parts affecting performance.	Solder bond: Within 5 seconds at 270°C max., Within 30 seconds at 200°C min. Hand soldering: Soldering iron temperature 300°C, 3 seconds		

Note 1: Includes temperature rise caused by current flow.

Note 2: The term "storage" refers to products stored for long period of time prior to mounting and use. Operating Temperature Range and Humidity range covers non- conducting condition of installed connectors in storage, shipment or during transportation.

Note 3: Information contained in this catalog represents general requirements for this Series. Contact us for the drawings and specifications for a specific part number shown.

■Materials

Item	Part	Material Finish		Remarks	
	Insulator	LCP	Black	UL94V-0	
Receptacles	Contacts Phosphor bronze		Gold plating		
	Metal fittings	Phosphor bronze	Tin copper plating		
Plugs	Insulator	LCP	Black	UL94V-0	
	Contacts	Phosphor bronze	Gold plating		
	Metal shell	Phosphor bronze	Tin plating		
Metal shell Metal shell		Stainless steel	Tin copper plating		

■Ordering information

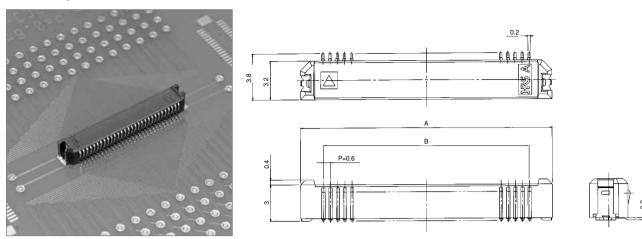

Receptacles/Plug

Series name : DF21	6 Termination section				
Number of contacts : 20, 30	V : Straight SMT				
Connector type	SD : Fine coaxial cable				
S : Single-row receptacle	Plug mounting parts				
P : Single-row plug	GND : Metal shell-required				
4 Contact pitch : 0.6 mm					

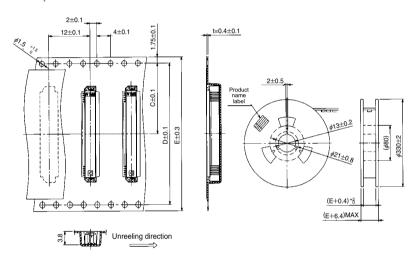

Note: The metal shell is an absolutely necessary part at the time of wiring.

B306 **HS**

■Receptacles

Embossed Carrier Tape Dimensions

[Specifications number] - * *, (* *)

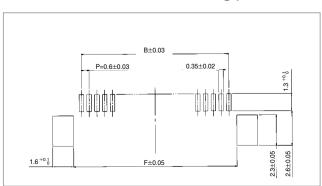

(56): Embossed tape packaging (1,000 pieces per reel)

Unit: mm

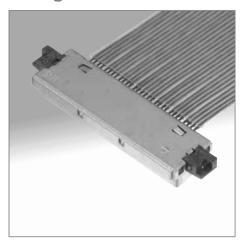

Product No.	CL No.	Number of Contacts	Α	В	С	D	Е	F	RoHS
DF21-20S-0.6V(56)	687-0001-5-56	20	15.2	11.4	11.5		24	12.6	YES
DF21-30S-0.6V(56)	687-0003-0-56	30	21.2	17.4	14.2	28.4	32	18.6	153

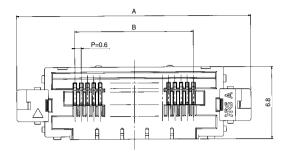

Note: One reel contains 1,000 pieces package unit. Please order by the package unit.

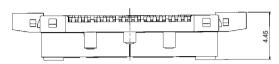

Recommended PCB mounting pattern

■Plugs

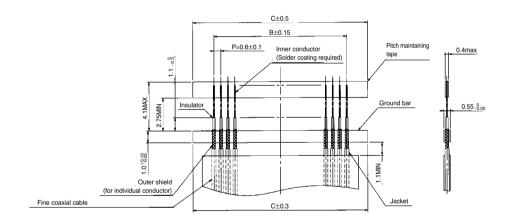

Unit: mm

Product No.	CL No.	Number of Contacts	Α	В	С	RoHS
DF21-20P-0.6SD(05)	687-1500-0-05	20	22.5	11.4	15	YES
DF21-30P-0.6SD(05)	687-1502-6-05	30	28.5	17.4	21	123

Note 1: One package unit contains 100 pieces. Please order by the package unit. Note 2: The metal shell is an absolutely necessary part at the time of wiring.

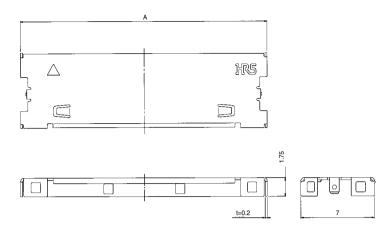

Recommended Fine Coaxial Cable Preparation

- Note 1: The pitch maintaining tape can be left in place during the termination process. Use high quality tape.
- Note 2: When using 2-conductor coaxial cable, some contact positions will not be usable. Contact nearest Hirose sales office for recommendation on specific application.
- Note 3: Contact Hirose for Termination Procedures.

■Metal shell-Required for assembly of the Plug

Unit: mm

Product No.	CL No.	Number of Contacts	А	RoHS	
DF21-20P-0.6SD-GND(05)	687-2500-6-05	20	17.7	YES	
DF21-30P-0.6SD-GND(05)	687-2502-1-05	30	23.7	YES	

Note 1: One package unit contains 100 pieces. Please order by the package unit. Note 2: The metal shell is an absolutely necessary part at the time of wiring.

Usage Recommendations
